+Mr. V8 146/8 entered the Brahman scene with a bang, becoming the first and only Brahman bull to win the International Brahman Show three times. He brings thickness and muscle, power for days, soundness, and excellent breed character all while maintaining acceptable birth weights on his calves. "Sloan's" calves are consistently high quality, with excellent feet and legs, muscle, thickness, and style.

After years without a name, in early 2021, we decided to name him after our beloved patriarch, Sloan Williams because both he and **+Mr. V8 146/8**, were the best of the best. In 2022, **+Mr. V8 146/8** was inducted into the ABBA Register of Renown. He is one of the youngest bulls to ever receive this honor. Also, in 2022 & 2024, his progeny won the National Champion Get of Sire.

Standing the test of time, one of the older sires in our lineup is **+Mr. V8 191/7**. A former Reserve International Champion Bull, he sires very long-bodied, up-headed, muscular, thick, and visually appealing calves. He is the sire of both **+Mr. V8 933/7 "Yeti"**, and the **2017 Houston Grand Champion Brahman Bull, Mr. V8 604/7, "Man of Steel."** Our daughters of **191/7** are some of the most prized donor females in our herd, most notably **+Miss V8 33/8**, who is considered by many to be the best cow on the ranch.

The dam of **+Mr. V8 191/7** is the phenomenal **+Miss V8 464/6** from the famed **Claydesta 807U5** cow family. She was an International Champion and the Grand Champion Female at the World Brahman Congress. It's no surprise that **191/7** has become a great herd sire, as great bulls come from great cow families.

As we enter the era of the "Sons of Sloan," Mr. V8 873/8 "Colossal" is quite a rising star. His sire, **+Mr. V8 146/8 "Sloan"**, is the breed's only three-time International Grand Champion Bull. The dam of "Colossal" is **+Miss V8 33/8**, who needs no introduction to V8 collectors. The mother of the National Champion **+Mr. V8 322/8**, she also produced the high-selling heifer in Made for Magic II, **Miss V8 281/9**, who is a full sister to "Colossal" and a future donor for Ki Cattle Company.

A V8 Superblend™ from the **Rose cow family** blended with **+Miss V8 805/6** through his sire, "Colossal" offers exciting opportunities for both red and grey breeders. He is very long-bodied, excellent on his feet and legs, level-topped and very balanced. Additionally, his actual birthweight of 71 pounds makes him a calving ease option

Nicknamed "Gator" in honor of his owner Tommy Stoddard of Louisiana. Gator is an extremely popular bull both in the United States and globally. He is a jet black bull with a lot of pigment. He is also extremely thick, heavy muscled, and solid beef. His pedigree combined with his dark candidate also make him an ideal candidate to breed on red cows as well. Gator represents the Rose Cow Family, and is out of + Miss V8 209/6, the 2005 Reserve International Champion Female. An additional bonus of Gator is that his actual birth weight is 74 pounds, making him a low-birthweight Brahman bull option.

Known throughout the world for his friendly and gentle disposition, Mr. V8 274/7 "George" is a high-performing bull who excels in many areas. His sire is the outcross bull Mr. V8 354/6 who was a herd bull for Windy Hill Ranch. After seeing the calves at Windy Hill, we used 354 in our AI program and found the calves to be heavy muscled, good natured, and performance oriented. As a show bull, Mr. V8 274/7 "George" was Reserve Grand Champion at the 2013 Kicko Classic and a consistent contender throughout his show career. Mr. V8 274/7 "George" is used as a natural service sire at V8 Ranch. His calves are easy fleshing, stylish, and as you would expect, have great dispositions. Two females sired by "George" in our Made for Magic Sales have averaged \$38,000.

Mr. V8 85/7, "Ocho Cinco" was the sire of one of our \$28,000 high selling Brahman Female in our May 2017 online heifer sale. He is sired by the Mexican import, +=JADL Rey TE 110, who we like for his conformation as well as his Madison x Powerstroke pedigree. When we purchased a limited amount of semen on El Rey, we selectively mated it to the best possible cows on the ranch. We feel this mating with +Miss V8 410/6 was a great choice, as it produced Mr. V8 85/7 and his full sister Miss V8 463/7 who is the 2011 Reserve National Champion. He is a bull with a lot of performance, muscle expression, and power. He ranks in the top 1% of the breed for weaning weight and yearling weight. In addition to all of this, Mr. V8 85/7 produces excellent dispositions on his calves.

When **Mr. V8 996/7 "Vaquero"** was introduced to the USA Brahman market in 2020, his initial semen offering sold out in only four hours. Since then, he has turned into a wildly popular Brahman bull. Of moderate frame, he has tremendous bone, balance, and muscle with a very desirable sheath. With a Calving Ease Direct EPD of 5.67, he's the natural service sire at V8's show barn, pairing with our heifers to sire cattle with performance, muscle, show ring- potential, and look. His sire, **JDH Sir Compian Manso** makes him an outcross option. And as an added bonus, his dam is a full sister to **+Miss V8 49/8**, the dam of **Mr. V8 562/8, "Guardian,"** the 2022 Bull of the Year. This follows our lifelong commitment to building cow families and concentrating them.

Mr. V8 815/7 was a very popular Brahman Show Bull and a consistent winner in the V8 Ranch show lineup, finishing his show career with a big win at Houston as Reserve International Champion Bull (behind his V8 stallmate who won for the 1st time as a calf, + Mr. V8 146/8 "Sloan." What we really like about 815/7 is his length and muscle in a moderate frame size. He has what the old timers call an "apple butt," which is a really powerful hindquarter. Immediately after he won Reserve at Houston, he served as natural service sire at V8 Ranch and continues until his death.

+Mr. V8 960/5 was a dominating Brahman Show Bull, nishing his shw career by being named the International Grand Champion Bull. He has an interesting pedigree that has a double shot of the +Mr. V8 702/3 x +Miss V8 666/3 mating, via his paternal grandsire, + Mr. V8 777/4 and his maternal grandsire, Mr. V8 440/4. His dam, +Miss V8 552/5, was a dark pigmented National Champion Female out of our +Miss V8 4/5 cow family that traces to Suva and Charley. In addition to 960/5, she was the dam of 2 Reserve National Champion Bulls. +Mr. V8 960/5 is an optimum framed bull with muscle, depth and spring of rib, combined with maternal power and a gentle disposition.

+Mr. V8 287/5

+Miss V8 552/5

Mr. V8 977/6 represents a powerful V8 Superblend, uniting the maternal strength of the +Miss V8 4/5 cow family with the legendary influence of the +Miss V8 495/5 “Rose” cow family through his sire, the 2009 National Champion, Mr. V8 463/6. A former show bull turned hardworking herd sire, he served many years in natural service at our Hungerford division. His legacy carried on through elite daughters such as +Miss V8 102/8, a Register of Renown female who, as a calf, sold alongside her dam for \$45,000 for one-half interest. He is also the sire of two Maternal Merit females and Miss V8 262/8, a valued donor in the V8 herd. Given the caliber of his daughters, it’s clear he’s a power sire with a gift for producing high-quality females.

Sired by +JDH Sir Avery Manso and out of the original Marri Holly cow family matriarch, the 2000 National Champion female +JDH Marri Holly Manso 50/6. A flushmate to 614/6, Miss V8 954/6 was International Champion. Another flushmate, + Miss V8 947/6, is one of our leading donors at V8 and the dam of 2 Reserve International Champions as well as Mr. V8 910/8 "Axel." Phenotypically, this bull is long bodied and clean sheathed with plenty of style and eye appeal.

An interesting blend of genetics that are older and proven, yet still very current today combined with excellent EPDs and carcass traits make this bull one to consider.

A powerful V8 Superblend, this bull traces to the +Miss V8 571/3 cow family on the maternal side and blends in the influence of +JDH Marri Holly Manso through his sire. He comes from a line known for generations of rich, dark pigmentation — a trait he proudly displays with his striking color. His dam, +Miss V8 143/6, was both a National and International Champion Female for V8 Ranch, while his paternal granddam, +JDH Marri Holly Manso, was a National Champion for J.D. Hudgins Ranch. This bull represents the best of two legendary American Brahman programs — V8 Ranch and J.D. Hudgins. Physically, he's stamped with a tidy, correct sheath and outstanding American Brahman breed character. Genetically, his EPDs reveal a unique profile with notable carcass strength, adding further value to his already impressive resume.

LIVE CATTLE IMPORT

زندہ مویشیوں کی درآمد

پاکستان کی تاریخ میں پہلی بار برازیل سے رجسٹرڈ اور پیڈ گریڈ سفید نیلور، سفید براہمن، گرولانڈو اور گرنسل کے بیل اور حاملہ بچھڑیاں درآمد کی جا رہی ہیں

The Brazilian White Brahman is primarily known as a heat-resistant, highly adaptive beef cattle breed valued for its meat quality, fertility, and ability to thrive in harsh tropical conditions.

برازیلین سفید براہمن کی خصوصیات

Uses & Advantages: آٹھ سال اور زائد
Primarily for beef; crossbred for heat resistance and productivity. Durable with low input costs and high meat yields.

Temperament: مزانج
Docile, calm, intelligent, and easy to handle.

Meat Production: گوشت کی پیداوار
High-quality meat with good marbling and efficient feed conversion.

Physical Traits: جسمانی خصوصیات
White/light gray coat, curved horns, and prominent hump. Well-developed dewlap for heat dissipation.

Adaptability to Climate: ماحول سے مطابقت
Thrives in hot, humid climates; resistant to heat, parasites, and diseases.

Reproduction & Fertility: تولید اور زرخیزی
High fertility with easy calving and a long reproductive lifespan.

The Brazilian White Nelore is a cattle breed primarily raised for beef production, known for its adaptability and resilience in tropical and subtropical climates. Here are its main characteristics:

برازیلین سفید نیلور کی خصوصیات

Color: رنگ
White/light gray with some darker shading; darkly pigmented skin.

Temperament: مزانج
Docile and alert; suitable for extensive grazing.

Meat Production: گوشت کی پیداوار
Known for lean meat with good marbling, making it desirable in the beef industry.

Physical Traits: جسمانی خصوصیات
Medium to large frame with a prominent hump; short, curved horns; well-developed dewlap.

Adaptability to Climate: ماحول سے مطابقت
Thrives in heat, humidity, and low-quality forage; resistant to ticks and tropical diseases.

Reproduction & Fertility: تولید اور زرخیزی
High fertility; strong maternal instincts.

60 Kg
Production in 24 Hours

The Brazilian Gir is a well-rounded dairy breed, celebrated for its adaptability, high-quality milk production, and suitability for tropical dairy farming systems.

برازیلین گرنسل کی خصوصیات

Milk Production: دودھ کی پیداوار
High milk yield (60 liters/day). Rich butterfat content (4.5–5%), ideal for dairy products like cheese and butter.

Adaptability to Climate: ماحول سے مطابقت
Excellent heat tolerance, thriving in hot and humid climates. Resistance to parasites and tropical diseases.

Physical Characteristics: جسمانی خصوصیات
Prominent convex forehead (ideal for heat dissipation). Well-structured udders suitable for efficient

Reproduction and Fertility: تولید اور زرخیزی
High fertility rates with easy calving. Long productive lifespan, ensuring value over many years.

Temperament: مزانج
Calm and docile, easy to manage for milking and handling. Highly intelligent, with good learning ability.

Uses: آبستمالیات
Primarily a dairy breed, but males and surplus females can be used for beef production. Widely used for crossbreeding to improve tropical adaptability and milk production in other breeds.

Advantages: فوائد
Durability in harsh conditions: Adapted to low-quality forage and extreme weather. Efficient milk production: High yield with lower input costs.

Global Popularity: عالمی مقبولیت
Originated in Brazil; popular in tropical regions worldwide

127.570 Kg
Largest World Production in 24 Hours

The Girolando breed blends the productivity of Holsteins with the resilience of Gir, making it ideal for tropical dairy farming

برازیلین گرولانڈو نسل کی خصوصیات

Milk Production: دودھ کی پیداوار
High milk yield. Balanced fat and protein content. Performs well in tropical regions.

Adaptability to Climate: ماحول سے مطابقت
Heat and disease resistant (inherited from Gir). Thrives on low-quality forage.

Physical Characteristics: جسمانی خصوصیات
Medium to large size, muscular body. Varied coat colors (black, white, spotted). Well-structured udders

Reproduction and Fertility: تولید اور زرخیزی
Early maturity and high fertility. Strong reproductive performance in tropical areas.

Breeding Composition: نسب ترکیب
Ideal: 5/8 Holstein + 3/8 Gir for productivity and adaptation. Other ratios used based on environment.

Temperament: مزانج
Generally docile; varies based on genetic ratio.

Uses: آبستمالیات
Primarily dairy; surplus cattle suitable for beef.

Advantages: فوائد
Cost-effective, heat-tolerant, and long-lived.

Global Popularity: عالمی مقبولیت
Originated in Brazil; popular in tropical regions worldwide
